2. INDUSTRY STRUCTURE AND DEVELOPMENTS:

General:

In 2015, global economic activity remained subdued. Growth in emerging market and developing economies, while still accounting for over 70 percent of global growth, declined for the fifth consecutive year, while a modest recovery continued in advanced economies. Key transitions continue to influence the global outlook, namely, the gradual slowdown and rebalancing of economic activity in China away from investment and manufacturing toward consumption and services, lower prices for energy and other commodities, and a gradual tightening in monetary policy in the United States in the context of a resilient U.S. recovery as several other major advanced economy central banks continue to ease monetary policy. India and the rest of emerging Asia are generally projected to continue growing at a robust pace, although with some countries facing strong headwinds from China's economic rebalancing and global manufacturing weakness.

India's stable macroeconomic

AUTOLITE (INDIA) LIMITED

environment and strong growth outlook stand out relative to other emerging markets. Growth in 2014-15 was 7.3 %, substantially higher than 6.9 % in 2013-14. This strong growth performance continued in the first quarter of 2015-16 with 7.0 % growth, compared to 6.7 % in the corresponding period of 2014-15. Headline Consumer Price Index (CPI) inflation reached its lowest level in August, 2015 since November 2014. In addition, inflation expectations have also eased. Liquidity conditions eased considerably during August to mid-September. The Reserve Bank of India reduced the policy rate by 50 basis points from 7.25 % to 6.75 %. India's foreign exchange reserves rose to US\$ 355 billion (as of August 2015), up by US\$ 12 billion from the level on April, 2015.

The Company operates in Automotive and Automobile Sectors and thus the Industrial outlook is as follows:

Automobile Industry:

The automobile industry shows a growth in the production trends as it has reported 2,39,60,409 units total production in financial year 2015-16 in comparison to 2,33,58,047 units in the previous fiscal year, marking an increase in total production of automobile by 2.58%.

Domestic Sales are reported to be 2,04,69,385 units in the financial year

2015-16 in comparison to 1,97,24,371 units in the financial year 2014-15 showing an increase of 3.78% in total domestic sales trend.

Whereas, Export Sales are reported to be 36,41,212 units in the financial year 2015-16 in comparison to 35,73,346 units in the financial year 2014-15 showing an increase of 1.90% in total domestic sales trend.

- India is also a prominent auto exporter and has strong export growth expectations for the near future. In addition, several initiatives by the Government of India and the major automobile players in the Indian market are expected to make India a leader in the Two Wheeler (2W) and Four Wheeler (4W) market in the world by 2020. The Government of India encourages foreign investment in the automobile sector and allows 100 per cent FDI under the automatic route.

Some of the major initiatives taken by the Government of India are

as it expects the passenger vehicles market to triple to 9.4 million units by 2026, as highlighted in the Auto Mission Plan (AMP) 2016-26.

- In the Union budget of 2015-16, the Government has announced plans to provide credit of Rs 850,000 crore (US\$127.5 billion) to farmers, which is expected to boost sales in the tractors segment.
- The government plans to promote eco-friendly cars in the country—i.e. CNG-based vehicles, hybrid vehicles, and electric vehicles—and also to make mandatory 5 per cent ethanol blending in petrol.
- The government has formulated a Scheme for Faster Adoption and Manufacturing of Electric and Hybrid Vehicles in India, under the National Electric Mobility Mission 2020, to encourage the progressive introduction of reliable, affordable, and efficient electric and hybrid vehicles into the country.

47. The Company has entered into an agreement with Anusika Industries Limited in financial year 2010-11 to recover the advance given for Job work of Manufacturing Head Lamps by exclusive use of Manufacturing facilities of the said Company. The aforesaid Company is registered with Board for Industrial & Financial Reconstruction (BIFR), but doing Job work for Autolite (India) Limited for last 14 years. However no amount has been recovered during financial year 2015-16 according to the agreement. In the opinion of the Management, recovery of outstanding balance of Rs 606.72 Lakhs is doubtful. As there is uncertainty of the amount recoverable from party in the absence of order of BIFR the management has not provided any amount in the books.

(i) The Company has lodged claims for development cost for Rs.252.00 Lakhs and for dues against supplies for Rs.3.16 Lakhs on Pal Peugeot Limited, Mumbai, before Receiver, High Court of Mumbai on 03.06.2004 under Suit No. 3636 CR 1999 and further the claim was also filed before Official Liquidator, Mumbai on 23.09.2006. These expenditure are related to years upto 31.03.2013. The accounting policy adopted by the Company is contrary to the treatment prescribed in AS-26 (Intangible Assets) which require such expenditure to be written off in Profit & Loss Statement in the year of expenditure incurred.
50. The Company has entered into an agreement with Autopal MPG Marketing Pvt Ltd (formerly known as Alwar Auto Private Ltd) in F.Y. 2011-12 to recover the Advance given for Capital goods and in F.Y. 2012-13 to recover the balance lying in books as Receivable in a phased manner.
